

Announcing

To make itself more available to the community and eliminate any toll calling barriers, the Jefferson County Tipline uses an 800 number.

The Jefferson County Tipline works with the ASSIST Language Line which provides access to over 150 different languages and dialects.

To reach the hearing impaired community, we have a TTY machine and work closely with the New York State Relay Service.

By calling 1-800-851-1932 and providing anonymous, basic information (i.e. location of party, estimated number of young people attending, what's being served, if adults are present, etc.) a difference can be made, tragedy diverted and lives saved.

One person, one voice can make a difference and change a course of events.

Jefferson County Tipline

“You know you care...make the call.”
